

Pacific Coast Flyers Presents - Gary Wigdahl on Complacency in Aviation

Many of us can relate to being in a hurry and thinking about if not actually skipping a few steps in the pre-flight or some other procedure that at the time, doesn't seem all that important. Gary will define complacency as it relates to flying and give us tools to overcome it. This will be followed by a period of challenging questions and answers. Gary's talk will be both entertaining and informative. Please join us!

Directions: The meeting will be held at the Palomar Airport Administration Building which is the first structure on the left as you enter the airport property. Please proceed past the building to the main parking lot which is down a short grade on the left.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
